

AREC 360: Global Agriculture

Developing Extension Education & Agriculture Technologies in Africa

A Global Classroom course that offers students a cross-cultural, project-based and virtual learning experience, in partnership with the Liberia International Christian College.

UMD Students spend the semester working with counterparts in Liberia to learn about and tackle some of today's biggest challenges in Global Agriculture. Under the guidance of a dozen guest lecturers and specialists, students work in groups to design and propose their own agricultural extension education for local farmers in Liberia.

Offered: Spring 2020

Class Meets Wednesdays,
10am – 12:50pm

Fulfills an Elective for the
Global Poverty Minor

GenEd Credits:
**Scholarship in Practice,
Diversity**

AREC 360 is the sister course to **AREC 361: Implementing Extension Education in Africa**. This new **summer Education Abroad** course gives UMD students the opportunity to travel to Liberia to implement extension activities.

COLLEGE OF
**AGRICULTURE &
NATURAL RESOURCES**
